Announcing CROSSTALK’s Co-Sponsor Team for 2007

Elizabeth Starrett
CROSSTALK

It is with great appreciation that I announce CROSSTALK’s co-sponsors for 2007. The support from these leaders in the software community makes it possible to provide CROSSTALK at no cost to software professionals. This year, the returning co-sponsors, including the Naval Air Systems Command, the three U.S. Air Force Air Logistics Centers’ Software Maintenance Groups, and the U.S. Department of Homeland Security welcome the Assistant Secretary of Defense (Networks and Information Integration) – Department of Defense Chief Information Officer. Please look for their contributions each month in our From the Sponsor column found on page 3. Their organizations will also be highlighted on the back cover of each CROSSTALK.

The Honorable John Grimes, Department of Defense – Chief Information Officer
The ASD(NII)/DoD-CIO is the principal staff assistant and advisor to the Secretary on networks and network-centric policies and concepts, command and control, communications, non-intelligence space matters, enterprise-wide integration of DoD information matters, and Information Technology. Additionally, the DoD-CIO has responsibilities for integrating information and related activities and services across the DoD. The mission of the organization is to enable Net-Centric operations. NII/CIO is leading the Information Age transformation that will enhance the DoD’s efficiency and effectiveness by establishing an Information on Demand capability. See <www.dod.mil/cio-nii/> for more information.

Terry Clark, NAVAIR, Systems Engineering Department – Director, Software Engineering
The Naval Air Systems Command (NAVAIR) provides the cost-wise readiness and dominant maritime combat power to make a great Navy/Marine Corps team better. The NAVAIR team, in partnership with industry, is committed to serving the nation by balancing current and future readiness while developing, acquiring, and supporting naval aeronautical and related technology systems with which the operating forces, in support of the unified commanders and our allies, can train, fight, and win. See <www.navair.navy.mil> for more information.

Kevin Stamey, 76 SMXG Director
The 76th Software Maintenance Group at the Oklahoma City-Air Logistics Center is a leader in the avionics software industry that understands total system integration. The center has a proven record of producing software on time, on budget, and defect-free. Its people provide the expertise, software, weapons, interface, and aircraft systems that are fully integrated to ensure dependable war-winning capabilities. Its areas of expertise include navigation, radar, weapons and system integration, systems engineering, operational flight software, automatic test equipment, and more. See <www.bringittoinker.com> for more information.

Randy Hill, 309 SMXG Director
The 309th Software Maintenance Group at the Ogden-Air Logistics Center is a recognized world leader in cradle-to-grave systems support, encompassing hardware engineering, software engineering, systems engineering, data management, consulting, and much more. The division is a Software Engineering Institute Software Capability Maturity Model® (CMM®) Integration Level 5 Organization with Team Software ProcessSM engineers. Their accreditations also include AS9100 and ISO 9000. See <www.mas.hill.af.mil> for more information.

Diane Suchan, 402 SMXG Director
The 402d Software Maintenance Group at the Warner Robins-Air Logistics Center provides combat-ready weapon systems, equipment, services, and support personnel for the U.S. Air Force. The center is a leader in systems engineering, safety engineering, human factors engineering, advanced design and manufacturing engineering, and logistics engineering support. The center has responsibility for the sustainment of the F-15 Eagle, C-130 Hercules, C-141 Starlifter, C-5 cargo aircraft, U-2 surveillance aircraft, all Air Force missiles, all Air Force helicopters, and more. See <https://www.mil.robins.af.mil> for more information.

Joe Jarzombek, Department of Homeland Security – Director of Software Assurance
The Department of Homeland Security (DHS) National Cyber Security Division serves as a focal point for software assurance, as part of ensuring the security of cyberspace, and works closely with the private sector, academia, other government agencies, and international allies to improve software development and acquisition processes that will lead to better quality and more secure software. DHS provides the public-private framework for shifting the paradigm from patch management to software assurance. See <www.us-cert.gov> and <https://buildsecurityin.us-cert.gov/portal> for more information.

CROSSTALK still has one 2007 issue in need of sponsorship support. For more information about joining our government leaders, please contact Elizabeth Starrett at (801) 775-4158 or <beth.starrett@hill.af.mil>.
